

KB Maintenance Programs

SETTING THE STANDARD SINCE 1897!

119 years of experience will give you some insight on the value of preventative maintenance. Over the years we have witnessed the lesson of 'a penny of prevention is worth a pound of cure' played out thousands of times. Your security system is a very important investment that can't afford to be down. 'Not working' is NOT an option when securing life and assets!

The KB Maintenance Programs help ensure that your system stays in optimal health and protects your investment. We offer two levels of protection and service: the KB Classic and the Signature Plan.

Both programs include a certified technician performing regularly scheduled maintenance for your whole system.

PROGRAMS

The **KB Classic** program covers all regularly scheduled preventative maintenance system wide. We will clean, test, and fine tune all critical components.

The **KB Signature** program covers all regularly scheduled maintenance--as with the KB Classic--but also offers the exceptional coverage of corrective maintenance, repairs, and replacements of all components with 24 / 7 / 365 on call response.

Ensure your security products' and systems' readiness and optimal performance while preventing unexpected costs--KB makes it easy.

KB MAINTENANCE PROGRAM FEATURES:
