Beyond proven security results...

...peace of mind

Discover your smart, cost-effective solution
for after-hours security.

Cobalt delivers the security you need. The value you demand.

Protect your employees, property and office facilities after hours and on weekends with Cobalt's team of intelligent robots and problem-solving human Specialists. Cobalt delivers everything necessary to provide exceptional security service in real time and fits seamlessly into your company's culture.

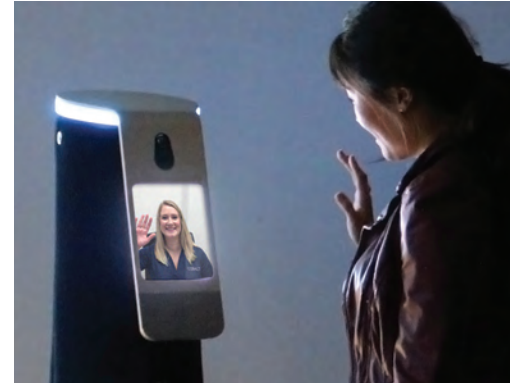

Intelligent robots and human Specialists work together.

Cobalt Robots

- have super-sensing capabilities with over 60 sensors
- patrol autonomously and tirelessly
- instantly notify Specialists when anomalies are detected
- are designed to blend seamlessly with business culture and interiors

Human Specialists

- interact when needed through a friendly two-way interface
- provide flexible and resourceful problem solving
- pilot robots when necessary
- respond in real-time to all events and anomalies

Cobalt subscription service. It couldn't be easier.

Cobalt's subscription service includes everything you need to get the security you require. From our team of robots and human Specialists to software, tech support, reports and more, there are no additional costs.

Let's get started.

Discover how Cobalt can increase your security, lower your costs and reduce the risk of leaving your facilities, property and employees unprotected after-hours and on weekends.
